Education

Master

Computerized systems, Automatic control systems

National Aviation University (ZHVINAU)

2005 - 2010

Tech Stack

🐘 Php | 🎵 Symfony | Rest API | ⚛️ React | 🐳 Docker | V Vue | Vuetify

Experience

Full stack Web developer
Lytvynov Production

August 2023 - January 1970

Join our dynamic team as a talented Symfony & React Application Developer, where you'll be at the forefront of crafting cutting-edge web solutions. As a key player in our development projects, you'll be responsible for harnessing the power of Symfony and React to build responsive and innovative applications that delight our users. Your deep understanding of both front-end and back-end technologies will be crucial in architecting scalable and high-performance solutions that drive our digital growth. With your passion for clean code and attention to detail, you'll ensure the seamless integration of features, APIs, and databases, creating a compelling user experience on every level. As we embark on new and exciting challenges, your expertise and creativity will be instrumental in shaping the future of our digital landscape. If you're ready to make an impact and thrive in a collaborative and forward-thinking environment, we'd love to welcome you to our team!

Symfony | docker | aws | react | Rest Api | Codeception | Tests

Front end developer
Skyup Studio

March 2022 - July 2023

As a seasoned Front-End Developer with a deep expertise in React, I bring a wealth of knowledge and innovation to every project I undertake. With a proven track record of delivering high-impact web applications, I excel at crafting seamless user interfaces and immersive user experiences that captivate and engage audiences. My extensive experience in React development allows me to efficiently architect complex front-end solutions, leveraging the full potential of the framework to optimize performance and scalability.

Having collaborated on diverse projects, I possess a keen understanding of best practices in front-end architecture and design patterns, which I utilize to create maintainable and reusable codebases. My proficiency extends to integrating APIs, managing state effectively, and implementing responsive designs that adapt flawlessly to various devices and screen sizes.

Wordpress | API | react | graphql | typescript | Redux | Nestjs

Full stack developer
Checkbox

May 2020 - May 2021

A dynamic and versatile Full-Stack Developer with a wealth of experience in creating exceptional web applications using Vue, React, and Symfony. My journey as a developer has been driven by an insatiable curiosity for technology and a passion for crafting seamless digital experiences. Proficient in both front-end and back-end development, I have adeptly utilized Vue.js and React.js to build captivating user interfaces that resonate with users on a profound level. In the back-end realm, Symfony has been my trusted companion, enabling me to architect robust and scalable solutions that power feature-rich applications. My dedication to clean and efficient code, combined with a keen eye for detail, has resulted in highly performant and user-friendly products. Adaptable and collaborative, I thrive in cross-functional teams, effectively bridging the gap between design and development. With an unwavering commitment to continuous learning and innovation, I am excited to take on new challenges and contribute to projects that shape the future of web development.
