EXPERIENCE

Front Tech Lead   Lytvynov Production
October 2023 - January 1970

As a Front-end Technical Lead, I stand at the forefront of developing cutting-edge web applications, steering projects with a blend of technical mastery and leadership acumen. My role is pivotal in guiding a talented team of developers through the complexities of modern web development, ensuring that we consistently push the boundaries of what's possible. I specialize in architecting scalable, high-performance front-end systems, leveraging the latest technologies and frameworks such as React, Redux, and NextJS, to deliver intuitive and immersive user experiences.
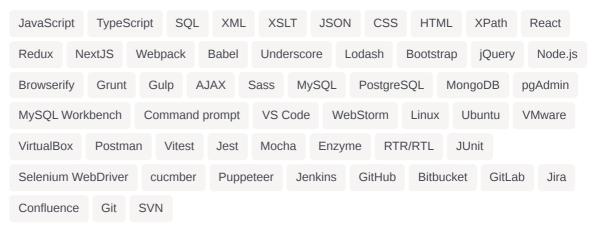

My expertise extends beyond coding; it encompasses strategic planning, technical decision-making, and fostering a culture of innovation and continuous learning within the team. I thrive on solving complex technical challenges, optimizing workflows, and mentoring developers to unlock their full potential. By maintaining a hands-on approach and staying abreast of the latest industry trends, I ensure our projects not only meet but exceed the highest standards of quality, performance, and user satisfaction. Leading by example, I am committed to driving excellence in every aspect of our work, from conceptualization to deployment, making a lasting impact in the digital landscape.

React   TypeScript   Node.js   Express.js   GraphQL   Apollo Client   Redux   Jest

Enzyme   Webpack   Babel   Tailwind CSS   Sass   Docker   Kubernetes   AWS (EC2

RDS   S3)   Git   Jenkins   Elasticsearch   Redis   PostgreSQL   MongoDB   RabbitMQ

WebSockets   Figma   Postman   VS Code   Linux.

Team Lead / Senior JavaScript Software Developer   NIX
August 2016 - September 2023

Interactive platform for investigate public opinion about future ad campaign in game mode.
Implemented: Developing and implementing game logic; added geolocation; updating web-
app architecture and structure; multilingual;

Interactive Android/IOS game for kids for learning algorithms Google
Blockly based. The following features were implemented: Developing and implementing
game logic; Implementing connection between JS part and QT5 part based on
WebSockets(API architecture and data structure); Adding interactive animations; adding
multilingual support;

JavaScript	TypeScript	SQL	XML	XSLT	JSON	CSS	HTML	XPath	React
Redux	NextJS	Webpack	Babel	Underscore	Lodash	Bootstrap	jQuery	Node.js
Browserify	Grunt	Gulp	AJAX	Sass	MySQL	PostgreSQL	MongoDB	pgAdmin
MySQL Workbench	Command prompt	VS Code	WebStorm	Linux	Ubuntu	VMware
VirtualBox	Postman	Vitest	Jest	Mocha	Enzyme	RTR/RTL	JUnit
Selenium WebDriver	cucmber	Puppeteer	Jenkins	GitHub	Bitbucket	GitLab	Jira
Confluence	Git	SVN

QA Automation Engineer   NIX Solutions
January 2009 - August 2016

As a seasoned QA Specialist, I possess a comprehensive expertise in ensuring the highest
standards of quality for software development projects. My role involves a meticulous
approach to testing methodologies, encompassing both automated and manual testing
techniques to identify and rectify any potential issues before they reach the end-user. With a
keen eye for detail and a relentless pursuit of perfection, I excel in creating and executing
detailed test plans, strategies, and scripts, ensuring that every aspect of the software is
rigorously evaluated for functionality, usability, and performance.

My expertise extends beyond traditional testing practices, incorporating the latest tools and
technologies to streamline the QA process. This includes proficiency in automation
frameworks, continuous integration systems, and bug tracking tools, allowing for efficient
identification and management of defects. I am adept at working closely with development
teams to foster a culture of quality from the initial stages of development through to product
launch. My proactive approach and dedication to quality assurance not only minimize the risk
of post-release issues but also significantly enhance product reliability and user satisfaction.

SUMMARY

As a Lead Frontend Developer, I've navigated the ever-evolving terrain of web development, mastering both the art
and science of creating state-of-the-art digital experiences. My journey is defined by a relentless pursuit of innovation,
where I leverage cutting-edge technologies and frameworks to build scalable, robust, and visually captivating
applications. With a deep-rooted passion for frontend development, I blend technical leadership with hands-on
expertise, guiding teams towards achieving excellence in every project.
